SECOND PRELIMINARY AMENDMENT
SUBMISSION OF SUBSTITUTE TRANSLATION
OF INTERNATIONAL APPLICATION

Honorable Commissioner of
Patents and Trademarks
Washington, D.C. 20231

Sir:

By way of preliminary amendment, please replace the translation of the international application that was submitted with the original filing of this application with the attached substitute translation.

Pages 10 and 11 of the original translation inadvertently omitted the chemical structures that appeared in the international application. The international application was communicated to the United States, a designated office, prior to December 7, 2000 which was the mailing date of the Notice of such communication of the attached form PCT/IB/308. This international application disclosed the chemical structures that were missing from Pages 10 and 11 of the original translation.

The attached substitute translation differs from the original translation in that the chemical structures missing on Pages 10 and 11 are now included as disclosed in the original international application which was previously communicated to the United States Patent and Trademark Office, as a designated office, prior to the date of the filing of this application under 35 USC Section 371.

Applicant respectfully requests entry of the attached substitute translation of the international application.

The Office is authorized to charge Deposit Account 02-0900 for any additional fees in connection with the filing of this paper.

The Examiner is invited to telephone the undersigned should any questions arise.

Respectfully submitted,

David R. Josephs
